MAXÉVAN & CO.

P A R I S

MAXEVAN&Co. est un marque de bijoux créé par
MAXEVAN with Swarovski Zirconia.

La pierre "Swarovski's Pure Brilliance cuts for Zirconia"
obtient des coupes de très hautes précisions. La symétrie
et les proportions exactes des coupes maximisent la bril-
lance et permettent à la pierre "Swarovski Zirconia" d'être
la plus précieuse et la plus proche d'un vrai diamant
actuellement disponible sur le marché.

Toutes les pierres « Swarovski Zirconia pure brilliance » sont marqués avec une
gravure microscopique et totalement invisible à l'œil nu. Ce label de qualité
gravé au laser est l'assurance que vous achetez des pierres de la plus haute
qualité fabriquées par Swarovski Gemstones.

Maxevan & Co Paris propose avec sa ligne « made with Swarovski Zirconia » des
pierres avec une taille de 58 facettes. Cette taille est la même que pour les
diamants et permet au « Swarovski Zirconia » d'avoir une brillance et éclat
identique à un diamant pur.

Every single Pure brilliance zirconia is marked with a microscopic engraving that is completely invisible to the naked eye. The laser-engraved quality seal serves as your assurance that you are acquiring stones of highest precision and brilliance meeting the cutting standards of the high-quality diamond industry. Maxevan's Swarovski Zirconia collections are cut into a total of 58 facets, giving exactly as brilliant as most diamonds show.
